W. James McNerney, Jr. Chairman, President and CEO The Boeing Company

## Re: Cleanup of Santa Susana Field Laboratory, Chatsworth, California

Dear Chairman McNerney:

As elected officials whose constituents are directly and adversely impacted by the activities at the Santa Susana Field Laboratory ("SSFL"), we stand together in our shared commitment to the high cleanup standards set forth in California's Senate Bill 990 ("SB990"), signed into law in 2007.

On Friday, September 3, California reached a historic agreement in principle with the Department of Energy and NASA to cleanup the areas of the site on which they operated, both for radioactive and chemical contamination, in full and voluntary compliance with SB990.

We now call on The Boeing Company to do the same:

- 1. End your litigation against the state and accept your responsibility for cleanup;
- 2. Join the other responsible parties and sign a new SB990 cleanup order with the state that will finally clean up all of the contaminated site for the ultimate protection of the health and safety of the people we represent.

Sincerely,

Julia Brownley, Assemblywoman Joint author of SB990 Fran Pavley, State Senator 23<sup>rd</sup> District

Congressman Brad Sherman 27<sup>th</sup> District Linda Parks, Supervisor 2<sup>nd</sup> District

Greig Smith, Councilman City of Los Angeles, 12<sup>th</sup> District
